

JHANSI SUVARCHALA KODURU

 +91 99897 69853  221fa04140@gmail.com  LinkedIn  GitHub

OBJECTIVE

Final-year B.Tech Computer Science student with a solid foundation in Data Structures and Algorithms (DSA) and full-stack web development. Passionate about applying Artificial Intelligence (AI), Machine Learning (ML), and software engineering skills to build scalable, real-world solutions in dynamic team environments.

EDUCATION

B.Tech in Computer Science , Vignan University, Guntur CGPA: 8.44/10	Expected 2026 AP, India
Intermediate (MPC) , NRI Jr College, Tenali Percentage: 98%	2020 – 2022 AP, India
SSC , Dr. KKR Gowtham Concept school, Tenali CGPA: 10/10	2019 – 2020 AP, India

SKILLS

Languages	C, C++, Python, Java, HTML, CSS, JavaScript
Frameworks	React.js, Node.js, Express.js
Tools	Git, GitHub, VS Code, Google Colab, Jupyter
Databases	MongoDB, MySQL
Concepts	DSA, OOP, OS, DBMS, CN, AI, ML

EXPERIENCE

AI Intern Infosys (Remote) Working on an AI-powered project under the Infosys Springboard internship program.	May 2025 – Present
AI Development Intern Microsoft (Remote) Developed an AI-powered Resume Screening and Ranking System under the AICTE internship via TechSaksham (Microsoft + SAP). (Certificate)	Feb – Mar 2025

PROJECTS

Skill Development and Internship Platform

Designed and developed a full-stack web application using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) for Vignan University. The platform enables students to browse and apply for internships and skill development programs.

AI-powered Resume Screening & Ranking System

Developed an intelligent system using **Python** to automate resume screening and ranking. Utilizes Natural Language Processing (NLP) techniques to analyze resumes and shortlist candidates effectively.

Autism Spectrum Disorder Detection using Machine Learning

Built a classification system to detect autism in toddlers using **Machine Learning** models, including Logistic Regression, Random Forest, XGBoost, AdaBoost, and SVM. Conducted comparative analysis to select the best-performing model and integrated federated learning to ensure data privacy during distributed training.

PUBLICATIONS / RESEARCH

”Unlocking Autism: A Machine Learning-Based Approach for Early Diagnosis” – Research work focused on early detection of Autism Spectrum Disorder in toddlers using ensemble ML models such as Logistic Regression, Random Forest, XGBoost, and AdaBoost. Incorporates federated learning to ensure privacy in distributed data training environments.

CERTIFICATIONS

- AI, ML, DL , Generative AI(**Infosys**)
- Pro Skills(**Infosys**)
- Networking, Python Essentials(**Cisco**)
- Cybersecurity Simulation(**TCS**)
- Data Science(**IBM**)
- Data Analytics(**Deloitte**)
- Data Science(**Coursera**)
- Google Analytics(**Google**)
- Preliminary English Test–B2(**Cambridge**)
- C++, Java(**GeeksforGeeks**)

STRENGTHS

- Strong problem-solving ability, Confidence and patience in handling real-world challenges
- Quick learner with adaptability to new technologies and tools
- Excellent communication and teamwork skills
- Time management and multitasking with consistent performance under pressure

LEADERSHIP / EXTRA-CURRICULAR

- Winner in Accessory Design Competition at Mahotsav 2024 and 2025.
- Organized technical events and coding competitions as part of the Computer Science Department fest.
- Active volunteer in college cultural and sports events.
- Member of university music and film club; performed and coordinated in annual fests.

AWARDS & ACHIEVEMENTS

- Winner in Accessory Design Competition at Mahotsav (National Level Fest), 2024 and 2025.
- Content Creator on Instagram with followers 5K; sharing content in fashion and lifestyle.
